Subject: UEM: Your 6 month report - KZN IWMPs 500,000.

Dear Shauna,

Very nice and inspiring to talk to you ! I do hope we shall have a chance to meet in person, soon.

With regard to your 6 m report, please will you confirm the following - which I am going to report to the PSC:

The plan for the integrated management of waste and chemicals in KwaZuluNatal which is on the UEM-KZN budget this year with a figure of 2,200,000

(department) + 500,000 R (UEM) is a **scheme of the province to support the 11 districts** in each in making their individual plan for the management of haz. waste. The scheme consists of

- initial meeting with all districts - offer of guidelines and of technical support, including procurement of consultants.
- Identification of needs and gabs in the districts
- Monetary and technical support to a number of districts, spending an amount corresponding to the total (2,700,000)
- collection of Draft IWMPs (I imagine for monitoring and reporting, in your own system and for some quality assessment)

You predict that the amount will more or less be spent by the end of the budget year, and that in any case you will at the **end of the budget year (in your 12 m. report) report that you will have spent the very 500.000 R from UEM.**

If there are details that I have not got right - please do some editing and let me have a similar statement with the right facts! I need it by the end of this week - I hope you can manage this.

You are wellcome, always to contact me for discussion etc., and as indicated, I look forward to seeing you sooner rather than later.

Best wishes

Bo
